

Student testimonials for the International Blog

“People are so friendly to unknown people like me, when I arrived the first time.”

Roshan Chulyada from Nepal

University: Rosenheim University of Applied Sciences

Degree course: Master in Electrical Engineering and Information Technology

Why did you decide to study at Rosenheim University of Applied Sciences?

During my search for the best universities in Germany, I found that most of the high ranking universities are in Bavaria so I decided to apply at Rosenheim University of Applied Sciences.

What do you particularly like about your university in Bavaria?

I found out that we not only study but also apply in practice at Lab. I found also the education with latest technology and in a practical way.

Was there anything that you found particularly strange or surprising when you first arrived here?

I found surprising that the local transportation is that well managed and systematic.

What are your plans and goals for the future?

My plan is to gain knowledge and study about the latest technology used here in Europe and to work as an engineer in a German company. My goal is to apply all my knowledge in my country Nepal.

What are your favourite places in your university town and why?

I like the place at the river near the city centre where Mangfall and Inn River meet because I feel relaxing there and I like greenery and nature.

If you were writing a postcard to your family and friends in your home country what would you say about your time in Bavaria?

This is city of culture with many good friends.

Is there anything you particularly miss about your home country?

I miss food from my country.
