

## **OUTGOINGS**

### **Out of Rosenheim – Experiences from students of Rosenheim University of Applied Sciences abroad (e.g. study abroad stay, internship, summer school, final thesis project)**

Are you thinking about studying abroad or have you already decided for a study abroad stay? In the International Blog of Rosenheim University of Applied Sciences, you can find useful information and tips about your stay abroad. Students who have studied or worked abroad tell about their experiences before, during and after their stay abroad and give important advice about the planning and preparation of your stay in a host country.

If you are interested in going abroad, there are many possibilities: In addition to studying at a foreign university for one or two semesters, you can also do an internship in a foreign company. If you prefer a shorter stay abroad, many foreign universities offer summer schools or language courses with a varied social programme during the summer period. Some students have also conducted research abroad for their final thesis and report about their experiences in the International Blog.

Enjoy your reading, commenting or blogging about experiences studying “Out of Rosenheim”!
