

Student testimonials for the International Blog

Short feedback about your stay in Rosenheim:

I had the best semester in Rosenheim, met so many new, nice people, saw so many nice places and really grew as a person.

Name: Emma Sköldberg

Home country: Sweden

University: Linnaeus University

Degree course (BA / MA): Business Administration

Contact email address: es223ce@student.lnu.se

Why did you decide to study at Rosenheim University of Applied Sciences?

I did not want to study too far from Sweden, I have always liked Germany and the city seemed nice. The University offered interesting courses.

What do you particularly like about your university in Bavaria?

I really like the University, the community is good and people are nice and helpful here. The university is big and the teachers are good. I like that the University is really close to the student dormitories.

Was there anything that you found particularly strange or surprising when you first arrived here?

Most of the things were pretty much as I expected, but I did not expect that I had to bring cash everywhere and that the beer was so cheap! I also had to change some of my courses since they were no longer available or not taught in English anymore; I was not really prepared for that.

What are your plans and goals for the future?

My goals are to finish my bachelor studies and maybe study my master somewhere. In the future I want to work as an HR.-manager.

Are you involved in any clubs/ extra-curricular activities at your university?

At my University in Sweden, I am involved in an industry committee. I was also responsible during the introduction weeks for the new students at the University last year.

What are your favourite places in your university town and why?

My University town in Sweden is called Kalmar; I love the big and famous castle there. I also love to go down to one of the beaches close to where I live.

What are your favourite things about Bavaria?

My favourite things about Bavaria are the traditions such as the beer fests and the costumes. I also like the nice people and their special dialect.

If you were writing a postcard to your parents and friends in your home country, what would you say about your time in Bavaria?

I would say that my time here flew by really fast, that the city is really cute and that they have to come here to explore this place. I would say that I experienced a lot, that it is easy to go by train from here to other nice cities such as Munich, Salzburg and Augsburg, and that I am really proud that I went here alone.

Is there anything you particularly miss about your home country?

I miss the Swedish west coast during the summer, midsummer, my friends and family and the Swedish meatballs of course.

Do you have any tips for other international students coming to Rosenheim?

They should not worry about anything; everything will be fine, even it is a bit confusing in the beginning with the courses, registrations and a different new language.
