Why did you decide to study at Rosenheim University of Applied Sciences?

Because of the good reputation of the school, the wood department, the mountains and the nice stuff to do around ☺

What do you particularly like about your university in Bavaria?

International office reactivity and kindness. Lot interactions between students from different faculties.

Was there anything that you found particularly strange or surprising when you first arrived here?

No.

What are your plans and goals for the future?

Getting my master degree and my engineering diplom in France and then, work in the construction or furniture field with architect or designer as a wood constructor expert.

Are you involved in any clubs/ extra-curricular activities at your university?

Yes, in sustainable gardening club, sport club and party organizer club.

What are your favourite places in your university town and why?

The artist gallery and the indoor rock-climbing because there are a lot of dynamic people, artist and sportsmen.

What are your favourite things about Bavaria?

There is a lot of boogie dancer and paragliding spot.

If you were writing a postcard to your parents and friends in your home country, what would you say about your time in Bavaria?

I had great time, met nice people, and that they should come and visit here all the nice things. There is also a special and romantic atmosphere that I never saw anywhere else. The sunset behind the mountain or the sunshine on the frost everywhere when everything is white.

Is there anything you particularly miss about your home country?

Yes the quality of the lectures in the wood and construction domain.

Do you have any tips for other international students coming to Rosenheim?

Yes, do not be late for giving back an assignment and be proactive (sending e-mail to your professor, asking for information) with the German people. Because, if the people doesn't come to you, it doesn't mean necessarily they don't care about you.
