

Student testimonials for the International Blog

Short feedback about your stay in Rosenheim:

Name: Mathilde Gineys
Home country: France
University: Cread Institut
Degree course (BA / MA): BA – Interior Architecture
Contact email address: math.gineys@gmail.com

Why did you decide to study at Rosenheim University of Applied Sciences?

I decided to come to Rosenheim University because of the region (Bavaria) that I wanted to discover but for the provided studies as well.

What do you particularly like about your university in Bavaria?

I liked how fast you can feel at home at Rosenheim University. All people are kind and helpful (but German students are hard to bind with). More particularly, being in the interior architecture field in Rosenheim is really great. All the buildings as well as the equipment are really nice. The teachers are passionate and motivating. Moreover, you can always count on the International Office in case you have a question or you need something (thank you to them!).

Was there anything that you found particularly strange or surprising when you first arrived here?

Nothing.

What are your plans and goals for the future?

After I graduated from my home university I'd like to look for a job in Germany.

Are you involved in any clubs/ extra-curricular activities at your university?

None (because they aren't any..)

What are your favourite places in your university town and why?

I love to have a walk along the quai de saône, it's resourcing, especially when the sunny days arrive. Or if you want to go shopping you can go to the rue de la République, which is nice because you can enjoy the outside environment as well as the shops.

What are your favourite things about Bavaria?

The landscapes... The architecture is interesting too because it's really different compare to the south of France.

If you were writing a postcard to your parents and friends in your home country, what would you say about your time in Bavaria?

Just come and experience by yourself. It's nice to have different experiences because the time runs so fast.

Is there anything you particularly miss about your home country?

I didn't miss much... sometimes the food and sometimes the sun☺. But it was nice to experience the snow!!!

Do you have any tips for other international students coming to Rosenheim?

Enjoy as long as you can. Travel around the region because you can always discover something unexpected and beautiful.
