

Student testimonials for the International Blog

Short feedback about your stay in Rosenheim:

Name: ELENA TRENTIN

Home country: ITALY

University: FERRARA

Degree course (BA / MA): MA

Contact email address: elena.trentin@student.unife.it

Why did you decide to study at Rosenheim University of Applied Sciences?

The main reason why I came to Rosenheim is the logistics and the University's website was really simple to understand. I was also interested in Lean Management courses.

What do you particularly like about your university in Bavaria?

Rosenheim UAS has a very organized environment. Every room and every staff is organized and educated to any need, being able to help when needed. Moreover, every professor has many foreign contacts and collaborations. This makes the universities of Bavaria excellent for cultural meeting points and attracting foreign students who want to learn.

Was there anything that you found particularly strange or surprising when you first arrived here?

I come from Italy, so I don't found anything particular strange or surprising because the system of the university is very similar. i.e. (the registration of the exam, the follow of courses, meetings with Professor). In Germany it is better, because the student or Erasmus student is continuously supported and this has increasing my background.

What are your plans and goals for the future?

My plans for the future are to increase my background and to adapt to new culture and tradition. For me this is an opportunity to study and being integrated in university and now I make a little job to increase the language.

My goal is also to increase my English and Deutsch, after I want to work in an International company where there are German and Italian workers or other culture. In October I will begin to work at BOSCH so I think I have realized a part of my drea. For the future I want to go around the world to work and learn from every person.

Are you involved in any clubs/ extra-curricular activities at your university?

Yes. I was making a little job at the student canteen

What are your favourite places in your university town and why?

My favourite place of the university is the "silentium raum" und "library", because every space is managed and there are more people that can help you. Moreover there are lot of laboratory.

In town my favourite place is the River.

What are your favourite things about Bavaria?

My favourite thing about Bavaria is the tradition. Every person at every age bring and fell the Bavarian Tradition. (food, drindl - typical dress, language).

If you were writing a postcard to your parents and friends in your home country, what would you say about your time in Bavaria?

My postcard would say that it was the best beautiful experience in my life. If you can prove integration with the people and respect, the Bavarian people open your heart.

Is there anything you particularly miss about your home country?

I missed the Italian quality food (Gemüse und Obst)

Do you have any tips for other international students coming to Rosenheim?

I convinced one girl from Rome to come to Rosenheim. I will help her in the beginning, because there is a lot of information and a lot of new things.

The International Office from Rosenheim put me in contact with other two German girls who will make Erasmus in my homecountry in my university of Ferrara. It is right to support the Erasmus student as a buddy because in the beginning it is particular difficult and it's better to have a student from homecountry.
