

Student testimonials for the International Blog

Please provide a short feedback about your stay in Rosenheim

Name: Ahmad Tamimi Siregar

Home country: Malaysia

University: Technical University of Applied Science
Rosenheim

Degree course: Master in Engineering Science

Contact email address: tamimisiregar@yahoo.com.my

Why did you decide to study at TH Rosenheim?

I decide to study at TH Rosenheim because the study environment, practical experiences and career prospective it offers. Located near to Germany's powerful state Bavaria and near to most economical city Munich is great for my future perspective in professional career. Next, opportunities afforded me in the master program such as appealing components consists of multidisciplinary interaction, technical engineering knowledge, research opportunities, a diverse and multicultural environment and networking opportunities draw my attention to study here.

What do you particularly like about TH Rosenheim?

What do I particularly like about TH Rosenheim is the TH Rosenheim's location itself. Located in a small calm town where it offers world class education, affordable living cost, diverse culture and rich history are really amazing. In addition to that, TH Rosenheim also located near to astonishing places such Alps mountains, Munich and many superb places in Austria such as Salzburg and Innsbruck.

Was there anything that you found strange or surprising when you first arrived here?

As for found strange things, I can say that there are not much strange things I found when I first arrived here since I have experienced German culture before when I was in Konstanz for an exchange student. But there was one thing that I found surprises when first arrived was the local accent, Bairisch accent. I ever knew about the local accent but never heard it directly. It is fascinating to hear the accent directly even though hard to catch up.

What are your plans and goals for the future?

My short terms plan and goals are to travel around Germany and Europe, complete my master program and build up network with many persons as much as possible.
My long terms plan and goals are to experience the working environment here in Germany and enrich my technical experience for my professional career. After that, if I have opportunity, I would like to further my study in PHD here in Germany.

What are your favorite places in Rosenheim and why?

Firstly, the TH Rosenheim itself is my favorite place because of the calm and peaceful study environment.
Secondly, is the Rosenheim city center because of the lively night life it offers, historical building and great restaurant.
Thirdly are the lakes nearby such Chiemsee or Simsee because of its well-known history and mesmerizing view during sunset with the Alps mountains.

If you were writing a postcard to your parents and friends in your home country, what would you say about your time in Bavaria?

Snow in the Winter, swimming in the Summer, leaves fall in the Autumn, flowers bloom in the Spring and the great Alps mountains are really magical. You all need to experience it here in the heart of Germany, Bavaria.

Is there anything you particularly miss about your home country?

Particular things that I miss from my home country are the variety of seafood, traditional food and also of course my family.

Do you have any tips for other international students coming to Rosenheim?

My important tip for incoming international student that I can say is to learn German at least intermediate level or above before coming to Rosenheim. This is because it will not just get you easily integrate with people around but also for your future job. Familiarize with Bairisch slang is the most recommended one.
