

Field report on studying abroad

Details on studying abroad

- Partner university, country:UMFST University,Romania
- Programme title (Blended Intensive Programme / Summer School):BIP,Boost your Entrepreneurship skills in Transylvania(BEST)
- Period (winter semester / summer semester, year):Summer semester,2024
- Your faculty and study programme at TH Rosenheim:Business Administration.MA International Management
- Your name and email address (optional; please note that your report will be published on the International Blog if you agree): Manya Madan, manyamadan77@gmail.com

Preparation

- Planning, organisation and application to the host university

International office helped throughout the entire application process. The BIP was posted on the university dashboard and the whole procedure from applying till coming back was very easy and convenient.

Accommodation

Accommodation was provided by the host university itself in their university premises. It was a great accommodation with a 5-star hotel facilities. Every meal was also provided by the organisers according to the students' preferences.

Study at the host university

- Information about your programme, facilities and services, sports and other leisure activities

I loved the the whole programme. Besides providing us with stay and meals, they also helped us guide through the beautiful city of Targu Mures. We had workshops with the founders of local startups from Targu Mures and came with ways to improvise their startups and came up with innovations in respect of their products. We were given practical sessions on the production process of the products as well.

Everyday life and leisure

- Contact opportunities within the university / outside the university
- What you have seen and done in the city / outside the city

In our leisure times, we explored the city with local students and teachers from the university. We visited zoos, museums and we partied as well.

Conclusion

Can you recommend this programme to other students? What did you like most?

I would highly recommend this programme to other students. It is a one time opportunity to learn, explore and celebrate. I loved the vibe of the whole programme. It was learning while having fun. Unforgettable experience. Must try!
